## **Actisense to Provide NMEA 2000 Wi-Fi Gateway 'Sneak Preview' at the 31<sup>st</sup> METSTRADE**

- *Actisense, the award-winning NMEA specialists, will be unveiling a sneak preview of their new NMEA 2000 Wi-Fi Gateway at the 31<sup>st</sup> Annual METSTRADE in Amsterdam.*

Actisense, the market leading marine electronics brand from Active Research Limited, will be providing a preview of their sophisticated NMEA 2000 Wi-Fi Gateway at this years METSTRADE. Exhibiting at the show for the 18<sup>th</sup> year in a row, Actisense will be meeting marine industry professionals from around the world and unveiling the new device, which will make NMEA 2000 data available over Wi-Fi for the first time.

The new NMEA 2000 Wi-Fi Gateway, has been developed by Actisense in response to changing market trends and advances in technology. The latest preview will be showcased alongside existing Actisense products including the multi-award winning Actisense EMU-1, NDC-5, PRO-MUX-1, NGT-1, NGW-1 and A2K range.

Actisense will also be holding their regular distributor reviews, these give their distributors a chance to review their performance, understand new products and look at developments for the year ahead. They can also meet the wider Actisense team, including COO Lesley Keets, Head of Sale & Marketing Danny Thrasher, Chief Engineer Andy Campbell and Technical Support Engineer & Training Coordinator Owen Vachell.

Danny Thrasher, said:

*"METSTRADE provides an excellent opportunity for our team to meet with our growing number of distributors who come from all corners of the world to attend the tradeshow. We have many exciting developments in the pipeline and we can't wait to share them."*

Held annually in Amsterdam, METSTRADE attracts thousands of visitors and is the world's largest leisure marine equipment trade show. Taking place from the 13<sup>th</sup> to the 15<sup>th</sup> November, it provides the perfect platform for Actisense to unveil their latest products, which are recognised globally for their quality, features and reliability.

CEO of Actisense, Phil Whitehurst, said:

*"We are delighted to provide a sneak preview of our new NMEA 2000 Wi-Fi Gateway at this year's METSTRADE. We have a great relationship with the show and have been attending it for many years now, having unveiled our very first branded products their back in 2001. We now look forward to once again meeting an abundance of representatives from the world's thriving leisure marine industry."*
